Version Control Systems | Git

Software Tools | Visual Studio Code, JetBrains IDEs, Figma, Git

Project Management Tools | Slack

PROJECT PROFILE

KONGCEPTS PVT. LTD. (SEP. 2024- TO DATE)- INTERN SOFTWARE ENGINEER

★ Vidumaga Student Management System

- Developed a web-based platform to manage student records with an admin panel for profiles, enrollments, and attendance.
- Contributed to both the React frontend and Laravel backend, ensuring secure authentication and data integrity.
- **Technologies:** React, Laravel, Bootstrap, MySQL, Git.

★ Car Sales Application

- Developed a system enabling admins to manage car listings and clients to browse available cars.
- Worked on both the CodeIgniter-based admin panel and the HTML frontend, optimizing MySQL queries for performance.
- **Technologies:** CodeIgniter, HTML, Bootstrap, MySQL, Git.

PERSONAL PROJECTS

★ Loan Eligibility Status Prediction Application

- Developed a web app that predicts loan eligibility using a trained machine learning model; independently managed both frontend (ReactJS) and backend (Python Flask) development, including requirement analysis, ML model training, SQL database design, and testing (unit tests & Selenium).
- **Technologies:** Python Flask, ReactJS, SQL, Machine Learning, Selenium, Git.

★ Career Consultation Application

- Designed and implemented a user-friendly web-based system where clients can easily book career consultations via a responsive HTML/CSS/Bootstrap interface, while administrators efficiently manage consultant schedules and approve appointments through a dedicated dashboard.
- **Technologies:** PHP, HTML, CSS, MySQL, Bootstrap, Git.

★ Project Management System

- Created a collaborative platform for project tracking with an admin panel for project creation, user assignments, and real-time dashboards; developed a React frontend and Spring Boot backend with secure JWT authentication and an efficient SQL database.
- **Technologies:** React, Spring Boot, SQL, Tailwind CSS, JWT Authentication, Git.
